

Join to the challenge to be Quantum Ready!

I-HUB QTF in partnership with NVIDIA is launching an exclusive challenge to be quantum ready for industry and startup researchers working in the field of quantum technology.

This challenge aims to provide participants direct access to the 36-qubit NVIDIA Quantum Simulator and support from NVIDIA scientists.

If you have a research project or use case that you would like to explore using an accelerated quantum simulator, this is your opportunity!

What We're Looking For:

Submit a concise proposal outlining your problem statement and a feasible approach to solve it using GPU enabled Quantum Simulator. We will create access for you on NVIDIA Quantum Simulator to explore your ideas.

For more details for application, kindly visit the link below:
