National Mission on Interdisciplinary Cyber Physical Systems
NM-ICPS

INTRODUCTORY COURSE ON QUANTUM COMPUTING

Online Certification Course

Bits to Qubits

How to make Qubits?

Qubit States, Gates and Circuits

Rules of the Quantum World

Computing with Qubits

Quantum Communication

Quantum Computation

Quantum Simulations

Quantum Information

Q C Hardware
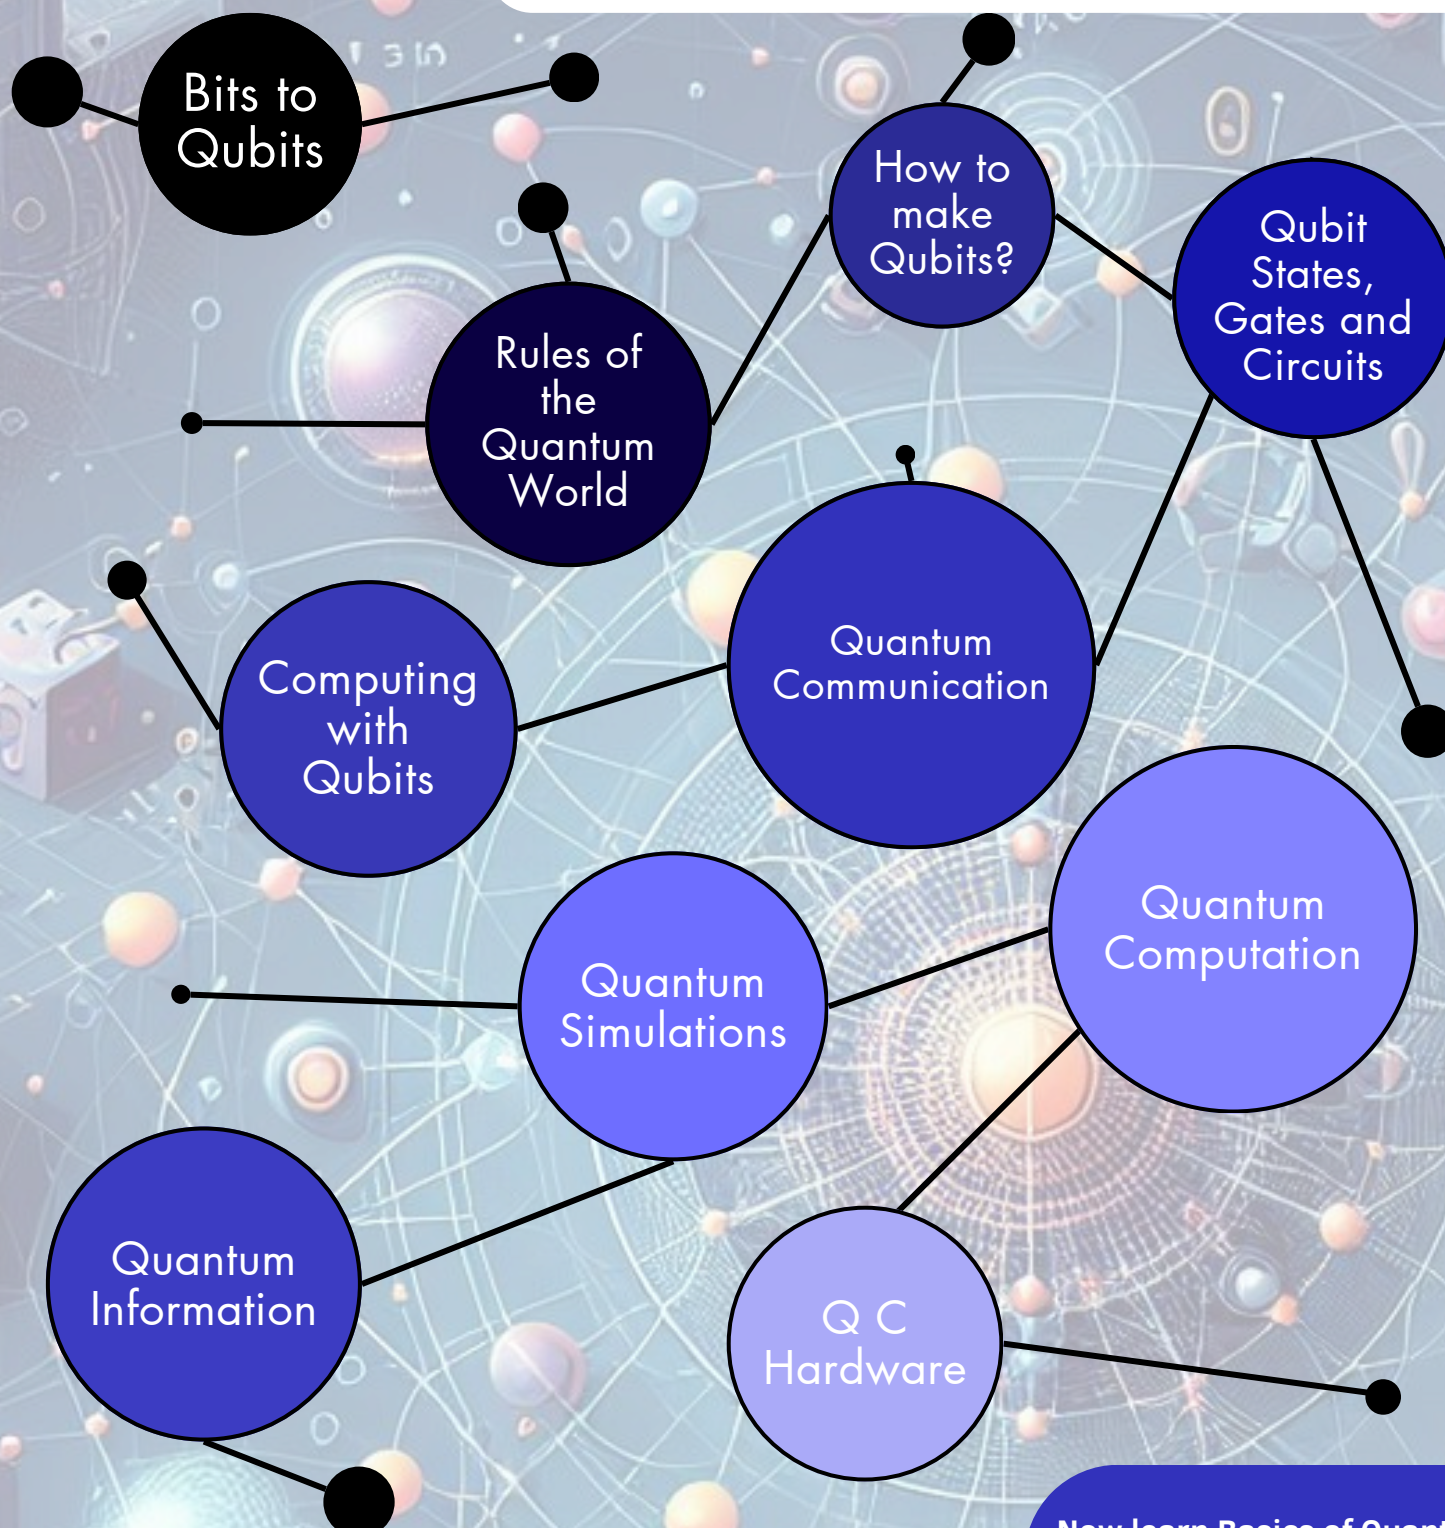

COURSE MENTORS

Prof. MS Santhanam
Professor Physics & Dean IRO
IISER Pune

Prof. TS Mahesh
Professor Physics
IISER Pune

Now learn Basics of Quantum Computing at your own pace....
- Video lectures accessible throughout the year
- Freedom to access one lecture multiple times

COURSE DETAILS

Quantum computers are expected to harness the exotic properties of quantum mechanics to perform calculations that are beyond the reach of present day classical computers. From drug discovery to optimizing supply chains to cryptography, quantum computing is likely to be the key disruptive technology of our generation, and would fundamentally alter the way we process data. This online certification course, delivered by frontline researchers in the field, offers a broad introduction to this rapidly evolving area. Irrespective of whether you are a curious beginner or a seasoned technology enthusiast, this course is designed to ignite your passion and expand your horizons.

Are you ready to leap into the future of computing?

- **Registrations Open throughout the year**
- **Duration: 10-12 hours**
- **Registration Fees:**
  For Students
  INR 1000/-

  For Professionals
  INR 5000/-
